'Monkey Village,' a living hell for locals

Bejing: A Chinese village where humans live alongside hundreds of monkeys sounds like a great vacation destination, but has become a living hell for the local population.

Over a decade ago, authorities in Xianfeng village, in southwestern Sichuan Province came up with an ingenious plan to boost tourism and turn their quaint settlement in one of China's most popular destinations – attracting wild macaques from the surrounding mountains to their village. Locals spent 48 days drawing in 73 monkeys using food, and their plan worked like a charm and the monkeys began to settling in.

The relatively small number of monkeys had multiplied to a population of over 600, and relied on their human neighbors for food. But villagers couldn't afford to pay for the food. The monkeys had grown so fond of their home that they decided to stay and do anything to survive. They began to terrorise villagers, damage crops and homes, and fight among themselves for food, thus making it a living hell for the villagers.

Artist creates artworks with kitchen salt

Norway: Artist Dino Tomic, who usually works with pencils and paper, is now working with kitchen salt on a black background to create insanely detailed portraits and Indian mandalas.

The Norway-based salt wizard, who works as an art teacher and tattoo artist, starts off with a large black canvas and uses a plastic bottle or a paper cone to painstakingly squeeze out the grainy mineral until he completes his masterpieces. Believe it or not, Tomic recently started working with salt, as a way of keeping busy while relaxing his wrist, which had started to hurt from too much hand-drawing.

What can I do to improve my cholesterol levels?

According to one study, weight loss may be more important than exercise in reducing bad LDL cholesterol. Losing as little as 5 LBS can lower heart disease risk. But don't discount exercise. Nine to 10 miles of walking per week can increase good HDL cholesterol by 14 to 20%.

VOICE OF THE READER

"NE MUKHYA RASTE??" – How daft can you be?

Sir,

When I moved into Jayalakshmipuram III Block some 18 years back, I noticed that the street in front of my house did not have a name. The street-name board just said "Block III"! (Anyone would know that it is not a street name but a locality name.) Having failed to get a "Namakarana" for my street with the help the previous MCC Commissioners, MLA, Corporators and the area engineers, informally I gave the street its logical name as 3rd Main as it was the street previous to 4th Main and also right in line with the 3rd Main of Block II.

However, my efforts to name the street officially continued (it goes without saying that I failed) and finally in early 2018, the new boards appeared. Sadly, many of the boards were error-ridden except that the names of the Corporator and the Legislator were correct. The street in front of my house was named as "NE MUKHYA RASTE." How daft can you be?

Now in November 2018, a fresh set of boards appeared with new names of the Corporator and Legislator but with the same errors continuing. Having failed to get it corrected through the new local Corporator, I finally decided that self-help is the best way. A 15-minute job with the help of an able assistant did the trick. *(see photo)*

I do hope that I will not be prosecuted for vandalising public property.

New DC Office

Sir,

In March 2018, the new building of the DC's Office on Bannur Road in Siddarthanagar was inaugurated in a hurry by the then Chief Minister.

Even today, no effort has been made to shift the offices to the new building, which looks like a haunted bungalow.

Will the officials concerned take prompt action to shift the offices at the earliest?

Chamarajanagar MP R. Dhruvanarayan directs ZP CEO to issue show-cause notices to absentee officers

Mysuru, Dec.2 (PM&SR)- Chamarajanagar MP R. Dhruvanarayan has instructed Chief Executive Officer of Mysuru Zilla Panchayat to issue show-cause notices to officers who failed to attend the Mysuru District Development Coordination and Monitoring Committee meeting that was held at Zilla Panchayat Hall.

The MP, who was chairing the meeting at ZP Hall yesterday, was upset as some of the officers stayed away from the meeting. Some higher officers had deputed their junior officers to the meeting. He expressed his displeasure over their absence.

"This is an important meeting and the officers have no reason to stay away from the meeting. Shockingly, they do not take such meetings seriously and that is why they have deputed their subordinates," the MP told K. Jyothi, the ZP CEO and asked her to issue notices.

Dhruvanarayan chided district-level officials for not making sincere efforts in implementing centre-sponsored schemes. He also took BSNL officials to task for their poor service.

'Maintain protocol'

Mysuru-Kodagu MP Pratap Simha, who was also present at the meeting, vented his ire against District Administration over the issue of not maintaining protocol. He alleged that officials of Hunsur and Periyapatna Taluks had not invited him for the inauguration of various development works implemented under the funds provided by the Union Government. Only local MLAs and Panchayat officials were invited while the MP was ignored, he alleged.

Coming down heavily on officials of Directorate of Civil Rights Enforcement (DCRE) for their administrative lapses, Prathap Simha wanted the ZP CEO to take stern action on these department officials. He alleged that the DCRE officials were not taking any action on people who misused SC/ST certificates to obtain jobs.

He said the Union Government had brought two sub-sects of Valmiki and Nayaka community like Parivara and Talawara under ST category. ZP CEO should issue directions to taluk-level officials not to harass people while issuing ST certificates to Parivara and Talawara communities.

He also criticised the poor functioning style of Panchayat Development Officers at Gram Panchayat level and wanted Taluk Panchayat Executive Officers to implement Centre and State-sponsored schemes and take action on erring PDOs.

He also castigated officials for not ensuring electricity to poor households under Deendayal Grama Jyoti Yojana or Soubhagya Yojana. ZP President Nayeema Sulthana, MLAs Anil Chikkamadu and Yathindra Siddharamaiah were present.

Dig trenches to prevent wild elephant menace, forest officers told

Taking serious note of the complaints of wild animals menace, MP R. Dhruvanarayan also instructed Forest department officials to dig Elephant-Proof Trench (EPT) to prevent elephants from straying into human habitation.

Speaking at the meeting, he wanted department officials to expedite the process of distribution of compensation for the farmers who had suffered loss from wild animal menace besides opening elephant camps to tackle wild jumbo menace.

He asked officials to see if the compensation amount can be increased for crop loss. At present, Rs 10,000 per acre is being given for the loss.

Responding to such complaints, Deputy Conservator of Forests (DCF) K.T. Hanumanthappa assured to take necessary measures to check wild animals from entering human habitats. He said there are no programmes to erect solar fence or railway fence at present.

The DCF said that a compensation amount of Rs 25 lakh for 230 crop loss cases in Hunsur and H.D. Kote taluks under Nagarahole Tiger Reserve that were reported till March end have been distributed.

MPs meeting on Dec. 4

Bengaluru, Dec. 2- Chief Minister H.D. Kumaraswamy has called a meeting of Members of Parliament of all Lok Sabha constituencies on Dec. 4. It will be an all-party meeting that will be held at Vidhana Soudha at 11.30 am.

The CM will discuss the pending projects by the Centre in Karnataka and will ask the MPs to exert pressure on the centre to complete the projects.

Mysuru-Bengaluru 8-lane NH works to start on Jan. 8

Bengaluru, Dec.2 (UNI)- Works on the project to construct an eight-lane National Highway (NH) between Mysuru and Bengaluru will start on Jan. 8, Chief Minister H.D. Kumaraswamy said yesterday. In all, it will be a 10-lane Highway with four lanes and two service roads on either side.

Reviewing National Highway projects in Karnataka, the CM directed the officials to expedite the process of getting required clearances for the project to widen the highway. The meeting was attended by Public Works Department Minister H.D. Revanna, senior officers from the National Highway Authority of India (NHAI) and the State government.

It may be recalled here that the foundation stone for the ambitious road widening project was laid in March 2018. Land acquisition was one of the biggest hurdles for the much-delayed project. The NHAI — the agency executing it, will build roads between the two cities and the new roads will be in addition to the existing lanes. The project is likely to take 2.5 years to complete. The scope of the work also includes construction of nine major bridges, 44 minor bridges, and four Road Over Bridges.

At the meeting, the CM was told that 80 percent of the land acquisition had been completed for the project and the remaining 20% was under progress. However, the project is yet to get environment clearances.

Officials have been directed to get the Forest Department clearance required for some parts of the Highway. The CM also directed the Karnataka Road Development Corporation Ltd. (KRDCL) and Revenue Department officials to complete pending works in their respective departments in co-ordination with the Deputy Commissioners.

Chief Minister H.D. Kumaraswamy Chairing the review meeting of National Highway projects in the State at Bengaluru yesterday as PWD Minister H.D. Revanna, senior officers of NHAI and the State Government look on.

Traffic density has increased the duration of travel between Bengaluru and Mysuru.

Once the eight-lane highway project is completed, the commute time between the two cities is expected to reduce significantly.

Additional Chief Secretary of Public Works Department (PWD) Rajneesh Goel said: "The meeting primarily focussed on sorting out certain issues for executing the project. It could be taken up only after 80% of the identified land was acquired, and that has been already achieved. There were issues of relocating a water pipeline in Mandya. Instructions have been given by the Chief Minister to the department concerned to take necessary action."

The Bengaluru-Mysuru Highway is a 10-lane road spanning 140 km, with by-pass roads for major towns such as Channapatna, Mandya and Srirangapatna.

Alleged kidnap and rape of minor girl

Accused arrested; he had confined the minor in his shop

Nanjangud, Dec.2 (KS)- An incident of a married man, allegedly kidnapping a minor girl, confining her in his shop and raping her, has been reported at Kuppasoge village in Nanjangud taluk. Hullahalli Police have arrested the accused identified as 32-year-old Siddaraju of Kuppasoge.

Siddaraju, who owns a shop at Rajamma Mahadev Layout in the village, was known to the minor girl. About three days ago, the girl had gone to her grandmother's house at K. Beltur in H.D. Kote taluk and Siddaraju had allegedly kidnapped the girl there. He then took her to Bengaluru and brought her to Talkad, where he forcibly married her after threatening her. He later brought the girl to his shop and confined her in a room at the shop. He used to lock the door of the room while conducting business and while going home too, Siddaraju used to keep the girl confined in the room of the shop, according to Police sources, who added that Siddaraju used to rape the girl at his shop before going home every day.

But on Friday night, Siddaraju had forgot his mobile phone at the shop and the girl, who found the mobile phone called her father and narrated her ordeal besides telling him where she was confined.

The girl's father immediately informed the matter to Hullahalli Police and Hullahalli Sub-Inspector Sandeep and staff raided the shop in the night, arrested Siddaraju and rescued the minor girl.

Street Dentistry

Omni Van turned into mobile clinic; He charges Rs. 100 for tooth extraction while dentures cost between Rs. 200 & Rs. 500

Sixty-year-old Babu Rao waiting for patients at his mobile clinic in city. Picture right shows the teeth sets preserved inside a glass case.

By Ramesh Kebbehundi

Street services are hardly an anomaly in Mysuru like any other cities and villages in India. Around the corner, you can find a man sitting on the street side repairing bicycle tires with his tool kit in his lap. Move a little further, you will find a puncture shop guy ready with a smile to close the nagging hole which has taken off the wind from your vehicle tyre and you can find sidewalk chefs preside over vats of hot oil to fry sweet and savoury pastries. You can also find self-proclaimed roadside dentists performing complicated dental procedures on patients with limited funds using almost medieval equipment.

There's no clinic, no costly chairs, no electric drills, there's no need for an appointment and consultation fees even. Patients just pull up a plastic stool and hope the dentist will relieve any pain with a set of steel pliers.

Street dentist **Babu Rao,** whose ancestors are from Rajasthan, learnt the dentist trade from his family. He's now been in this business since many years. Babu Rao is currently settled at Mahadeshwara Layout near Kumbarakoppal.

Every two to three days Babu Rao changes his location to find new customers and provide his services to patients in need. When *Star of Mysore* met him near Private Bus Stand on Sayyaji Rao Road, Babu Rao introduced himself as poor man's dentist.

"I work locally for poor people. I stand on the sidewalks along with my second-hand Maruthi Omni and carry equipment for my service. I park my vehicle in public places at corner side of the bus stand and footpath to pluck my fruits of labour," he says.

Babu Rao, who is into this profession from the past 35 years, has so far travelled many parts of Karnataka finding customers including neighbouring Kodagu, Chamarajanagar, Kollegal, Mandya and Tumakuru.

In his younger days he used to walk and travel in buses carrying all dentures, pliers and other accessories in a suitcase. Now 60-year-old Babu Rao has been earning his bread and butter and maintains a vehicle for his trade. He said he often visits jathras (fairs) where he finds many customers.

There are over 200 street dentists in Bengaluru. The only regret Babu Rao has is that among his five children nobody is interested to continue in this profession that has passed on from generations to generations. He said his nephew is continuing the ancestral business even today at Bengaluru.

As most of the government hospitals do not have dentists and private clinics are charging exorbitant prices, many poor patients visit him for tooth extraction, filling and other services, claims Babu Rao.

He said that he is a school dropout but learnt the dentist trade from his father. "I used to treat 20 to 25 patients a day a few decades ago but now I find only five or six patients in a week. I make around Rs. 2,500 a week. Now I can see only the poorest of the poor opt for my treatment as they cannot afford treatment at private hospitals," he says.

A new set of dentures will cost between Rs. 200 and Rs. 500 depending upon the quality and he charges Rs. 100 for tooth extraction. **Dentures sets of various sizes and quality are purchased from Bengaluru Medical College and other places.**

He said the drills, tweezers and pliers are sterilised and he washes his hands with disinfectants.

Tooth extraction is done after giving some painkillers but does not administer any anaesthesia. He says that he takes extra care of patients. "I am skilled and professional. I have not received any complaints so far," he says with a smile.

69th Mastakabhisheka held at Gommatagiri

(Continued from page 1)

The Mastakabhisheka ritual was performed to the 16-foot tall monolith statue, said to have been sculpted by Ganga kings 850 years ago. When the auspicious hour arrived, Jain seers signalled the start of the ceremony and priests atop the special platform above the idol began the Mastakabhisheka by pouring holy water (Jalabhishekha) at around 12 noon.

The statue of Gommateshwara was bathed with water mixed with turmeric, sandal, kumkum, tender coconut, milk and other ingredients as per the tradition of the Jains who had congregated in large numbers.

The statue situated atop a hillock, shimmered in different colours during the Mastakabhisheka.

Devotees chanted 'Bhagavan Bahubali ki jai' and 'Gommateshwara ki jai' and the sound echoed from the hillock as the grey granite statue turned from black to white to red and to golden yellow within minutes.

Located about 24 km from Mysore, the statue of Bahubali at Gommatagiri has a striking resemblance to its celebrated counterpart at Shravanabelagola, the difference being in size with the former not more than 16-ft tall while the latter measures 58 ft.

However, its small size has not diminished its popularity and the statue at Gommatagiri is famous as a tourist centre attracting the visitors with scenic backwaters of KRS Dam. Devout Jains from all over India frequent the place for pilgrimage.

Ranji Trophy - Karnataka Vs Maharashtra

Seven-wicket win for Karnataka

Mysuru, Dec.2- A clinical Karnataka coasted to a seven-wicket victory over Maharashtra in their Ranji Trophy match here yesterday.

This is Karnataka's first outright win in three fixtures thus far.

Requiring 130 runs to win on the final day, the host got past the finish line around 45 minutes into the second session. Openers Devdutt Padikkal (77, 128b, 11x4, 1x6) and D. Nischal (61, 212b, 4x4) put on

121 runs for the first wicket, which laid the perfect foundation for Karnataka.

Padikkal, making his First Class debut, was a picture of calm elegance. The southpaw favoured the back-foot drives and cuts, and ran well between the wickets with Nischal.

He looked set to make a century, until he succumbed to the guile of left-arm spinner Satyajeet Bachhav. A full delivery tempted Devdutt into lofting the ball into the hands of mid-on.

Nischal, meanwhile, played more than his part in Karnataka's success.

The 24-year-old was confident in attack and defence, in a risk-free four-hour stay at the crease. He showed steady temperament, which went a long way in raising the confidence level in the dressing room. Karnataka next takes on Saurashtra at Rajkot on Thursday.

BSNL employees to hold nationwide indefinite strike from tomorrow

New Delhi, Dec.2- The entire officers and workers of BSNL, under the banner of All Unions and Associations (AUAB), the umbrella organisation of all the associations, are going on an indefinite nationwide strike from Dec.3.

Demands of the strike include the immediate allotment of 4G spectrum to BSNL for rolling out its 4G service, implementation of the government rule in respect of payment of pension contribution by BSNL, wage revision of the employees and pension revision of the retirees, from January 1, 2017.

Blaming Reliance Jio for financial woes of the telecom sector, they accused that the whole telecom industry is gripped in a crisis. Big private companies like Airtel, Vodafone and Idea are running in huge losses. These companies are also laden with massive debts. The total debt of these telecom companies is in the range of Rs.8 lakh crore. All these have happened due to the predatory pricing of the Mukesh Ambani-owned Reliance Jio, which started its services in September, 2016.

AUAB said the public sector firm has been demanding allotment of 4G spectrum but "the government has turned a deaf ear to this demand, with the ulterior motive of preventing the public sector company from putting up an effective competition to Reliance Jio."

Apart from the allotment of 4G spectrum, the AUAB is also demanding the implementation of the government's rule in the matter of BSNL's payment of pension contribution.

"It is atrocious that, the Narendra Modi government is violating it's own rule, and is fleecing a huge amount from BSNL every year, in the name of Pension Contribution. This is seriously affecting the financial health of the Company," the Unions said.

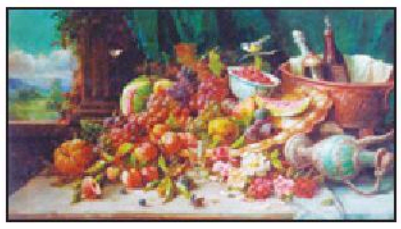
WORD OF THE DAY

Cornucopia

Pronunciation: Kor-nuh-KOH-pee-uh



Meaning: An inexhaustible store, a cornucopia of fruits and flowers.

Origin: Cornucopia comes from Latin cornu copiae, which translates literally as "horn of plenty." A traditional staple of feasts, the cornucopia is believed to represent the horn of a goat from Greek mythology. According to legend, it was from this horn that the god Zeus was fed as an infant. Later, the horn was filled with flowers and fruits, and given as a present to Zeus. The filled horn (or a receptacle resembling it) has long served as a traditional symbol in art and decoration to suggest a store of abundance. The word first appeared in English in the early 16th century; a century later, it developed the figurative sense of an overflowing supply.

Example: The book is a cornucopia of good ideas.

THE ODD WORD

Comess

A confused or noisy situation.

IDIOM OF THE DAY

Carry coals to Newcastle

Meaning: To do something pointless, useless or difficult to achieve.

Origin: Newcastle-Upon-Tyne in England was the UK's first port which exported coal. Newcastle has been famous as a coal mining centre since the Middle Ages. 'Carrying coal to Newcastle' was a pointless activity – because there's already enough there. With increasing globalisation, parallels in other industries are being found, and the phrase is now frequently used by the media when reporting business ventures whose success may appear unlikely. It has been referred to in coverage of the export of Saudi Arabian saffron and of British chicken tikka masala to India, the sale of Scottish pizzas to Italy, the flowing of champagne and cheese from Britain to France, and the export of manga versions of William Shakespeare from Cambridge to Japan.

Example: To offer him money is to carry coals to Newcastle; he is very wealthy.

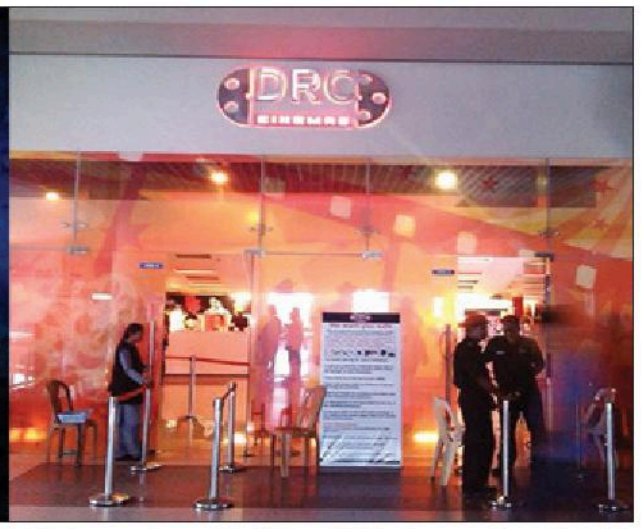
DRC Cinemas first multiplex in State to screen '2.0' with SRL4D Sound



Mysuru, Dec.2 - DRC Cinemas at BM Habitat Mall in Jayalakshmipuram here has become the first multiplex in Karnataka to screen the mega sci-fi blockbuster '2.0' with 'SRL4D Sound' where movie-goers can experience the most talked about and latest sound technology.

The much-anticipated movie of 2018, starring Rajinikanth, Akshay Kumar and Amy Jackson, has already captured the attention of movie buffs. Apart from its fantastic visuals, the sound of the film has also struck the audience with wonder and excitement. Though the film has been released in '2D' and '3D', the sound used is '4D'.

The SLR4D technology used in the film has raised standards to give the audience 'a never imagined experience.' This innovative and world-renowned sound technology has been introduced through this film in India for the very first time. Usually, surround sound system consists of speakers on the ceiling and on either side of the walls. But this innovative sound system will have the speakers being placed right under the seats to give a realistic and immersive viewing experience for the audience.
